What NOD offers.

This brochure brings together all NOD services and their prices.
Each one can be taken on its own or combined with others, depending on where the project stands.

The prices shown are starting points.
The final quote follows what the project actually needs.

Contact	One person, from the first conversation to launch
Where	Anywhere, remotely or on site
Languages	French, English
Partners	Trusted creatives, chosen from the NOD network for what each project needs

The founder, Nnéna.

After a master's degree in event marketing and communication with a minor in SEO, Nnéna learned to code: on her own first, then through training. Websites, then iOS apps with Apple.

Enough to go independent and work with agencies: community management, content creation, event coordination, steering committees, team management, performance analysis.

In 2025, she brought it all together in NOD.

Four stages.

Each service can be taken alone or combined with others. The brochure follows the life of a project.

Start

Three ways in, depending on where the project stands: a full launch, a strategic framing or a brand identity.

P.07 and P.08

Build

The website, designed and developed in full, with the technical add-ons the project needs.

P.09 and P.10

Bring to life

Content, social media management, online advertising, editorial strategy.

P.11 and P.12

Last

After launch, monthly support as a package or one service at a time.

P.13 and P.14

Services and pricing

Starting prices, VAT not applicable. The final quote is built on what the project actually needs.
